

DOT Glasses – use instructions

Little dizziness could appear at the beginning which should leave within one week of wearing glasses

Do not touch the lenses with your fingers

Use reading glasses for close objects only, not for seeing objects far

Before cleaning your glasses, wash them with warm (not hot!) water (and soap if possible)

Store your glasses when you are not wearing them – in a pouch or a box

Use cotton or microfiber cloth to clean your glasses

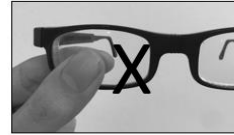

Always put on and remove your glasses with both hands to reduce wear of the material
